

Application information table of working conditions

No.	Items		Details	
1	Application	Terminal Application		
		Working Condition		
2	Detail Application Condition	Supercapacitor Type	Processing or circuit requirements	
			Add. Notes	
		Capacity (Rate Min)		
		Voltage (Range, Discharge)	Constant Voltage Output	
			Constant Current Output	
		Rate Current		
		Max Current		
		Working Temperature		
		Internal Resistance		
		Weight		
		Size		
Lifespan				
3	Working Condition	Current		
		Voltage		
		Single circle duration		
		Circle frequency		
		Other		
4	Input Condition	Input Voltage		
		Input Power		
		Other		
5	Working Environment	Working Temperature		
		Max Temp / Humidity		
		Storage condition		
		Other		
6	Client	Client name		
		Client requirement		

Note: Design and specifications are subject to change without prior notice.

It is recommended that you obtain technical specifications from CDA to ensure that the component is suitable for your use.

DAT NO.: CDA2505S1P
